

#### Location

- On the outskirts of Zurich
- Close to a freeway exit and train station
- Airport is 7 minutes away by car, train station located nearby

#### Building

- 2-floor data center
- Data center colocation size: 1,000 m<sup>2</sup>
- Colocation racks, data center cages and data center suites starting at 20 m<sup>2</sup>
- Loading dock for deliveries and material lock system for small items

#### Connectivity

- Carrier-neutral
- Multiple fiber-optic building entries
- More than 10 carriers
- Meet-Me-Room concept
- Access to cloud services
- Our 4 data centers are connected by our own redundant fiber-optic ring

#### Security

- Video surveillance
- In operation 24 hours a day, 365 days a year
- Separate access points for individuals and equipment
- Secure waiting room for deliveries
- Access control with a badge and PIN code as well as a man trap system that uses biometric identification
- Early fire detection system (VESDA), redundant nitrogen extinguishing system

#### Infrastructure

- Dedicated redundant power utility from two different substations
- Multiple diesel generators, redundant UPS system, generator operation for up to 48 hours
- Redundant cooling systems, redundant cooling water piping
- Cold aisle principle for maximum energy efficiency (PUE of 1.5)

#### Certification

- ISO 27001 information security management system
- ISO 50001 energy management system
- ISAE 3402 assurance report (on request)

#### Optional services

- Remote Hands
- Smart Hands
- Cross-Connects
- Deployments
- Reports
- Cleaning and waste disposal up to and including certified data disposal
